keeper to-day, and the latter stated that there was no sign yet of getting them. He did not know whether Mr. Ramp would proceed legally against Mr. Bernard or The same scribe also saw Mr. Bernard and asked him what he fias going to do.

Mr. Bernard said: "I have thirty days

in which to return my books, so that I can straighten up my accounts. When the books are returned they will be in such a condition that a child can understand them. The books when I got into office were in a miserable condition. Mine shall not be so. It took me ten days to fix up the witness fees book, as every name, to whom an account was due, had to be en-

"Then comes the account book, which has to be fixed up to correspond with my quarterly reports. Mr. Schelt is now at work on it, and as soon as I get done with that I will turn them over.

In the meantime Mr. Ramp has to get along without the books as best he can. His book-keeper's opinion is that the books could have long ago been straightened up and turned over to the present incumbent, whereby business would be expedited.

Cigar-makers' Lock-out.

There was another large meeting of the cigar-makers at Arbeiter Hall to-day. The reports from the different shops show no change. The report in the different papers that Lowenthal was going to Milwau-kee to manufacture, and Krobn & Feiss to New York, was met with shouts of laughter, as they have said the same thing so often. Preparations are on foot by the Union to start a large co-operative shop, and issue \$10,000 in \$2 bonds to the public. A great many citizens have promised to take them up as soon as issued, and a great many saloon keepers have promised to buy wholly from the concern, so that in a very short time they will have a large co-opera-tive factory in the city. The Manufacturing Interests of Cincinnati are larger and more varied than those of Pittsburg, Chicago, St. Louis, or any other Western city. A large portion of the population is necessarily made up of the intelligent artisan class, who are thrifty and well to do, and therefore a class whom merchants find

a profit in addressing. THE CINCINNATI

DAILY STAR

Offers special inducements to Advertisers desiring to reach this class of people. It publishes and circulates more papers in Cincinnati and immediate vicinity than any other journal formed in this city. It is taken and regal by people at THEIR HOMES; and for all classes of goods, where the Advertisor desires to reach the family, is more valnable, even in proportion to circulation, than a paper that is a favorite only in the counting-room. Its news covers the affairs of every day life, dressed up in such a manner as to be of special interest to the ladies; and its advertisesments are therefore brought more conspicuously before them than is the ciese with any other paper in this city. For these reasons, and many others which we might cite, the STAR is an unequaled medium for
